The Proposed Natural Resources Plan, Appeals version 2019 (PNRP) identifies which parts of the Proposed Natural Resources Plan (PNRP) are subject to appeals and therefore may change as a result of the appeals process. Those parts of the PNRP under appeal are shown in **red** text with the Appellant party(ies) listed in the right hand margin.

The Natural Resources Plan will not be fully operative until all appeals are resolved. Where a rule of a proposed Plan has not been appealed, in accordance with Section 86F it must be treated as operative (and any previous rule as inoperative). The Clause 16 corrections, as scheduled by Council, have been included in the Appeals version 2019.
