Good morning,

First Gas would like to request an extension for evidence until Thursday 29 March at 5pm. We have already filled planning evidence, however would like to add additional evidence from the First Gas representative. An administrative error has resulted in working to the wrong date for the lodging of evidence – 29 March rather than 26 March.

I apologise to the Hearing Panel for any inconvenience that this request may bring, and for the late notice. I look forward to hearing from you.

Kind regards,

Erin Whooley
