

Proposed letter to Mayor Terris

File No.: B/19/6/1

John Terris – Petone's Water Supply

April 2000

John Terris
Mayor of Lower Hutt
Hutt City Council
Private Bag 31912
LOWER HUTT

Dear John

Petone's Water Supply

As you are no doubt aware, my Council decided on 13 April 2000 to offer to assist in the provision of unfluoridated water to the Rahui Reservoir by meeting half the estimated cost of the capital works.

I hope Hutt City Council will consider this offer at its next Council meeting and agree to fund the balance of the cost.

This Council has instructed our officers to draw up an agreement, for signature by both Councils, pending your Council's decision, so we can proceed as soon as possible.

As we are both aware, this has been a long and often difficult issue but hopefully has now produced a result which everybody concerned is comfortable with.

I am also attaching my letter to the other Councils advising them of our decision.

Yours sincerely

STUART MACASKILL
Chairman

Encl.
