**Subject:** FW: Eastern Bays Shared Path project: Further Information Request (s92) and s95E RMA - WGN190301 & RM190124

Hi Shannon

I have looked through the information provided in response to the S92 request. My only comment, which may already be covered by Iain, is that with regard to monitoring and evaluating the requirements for further monitoring of the beach performance.

Performance of the beach is likely to be in response to storminess, weather, waves and tidal conditions. Monitoring should include post-storm survey and analysis in coordination with the return period to evaluate whether the beach has been sufficiently 'tested'.

I'm happy to discuss...

Kind regards  
Sharyn

**Subject:** FW: Eastern Bays Shared Path project: Further Information Request (s92) and s95E RMA - WGN190301 & RM190124

Hi all

The first part of the Eastern Bays Shared Path request for further information has come in for consideration while the more complicated matters (seagrass and effects on penguins) are being worked through. The consent will remain on hold under s92 of the Resource Management Act until ALL of the information has been provided and confirmed as appropriately addressing the information requested.

**Megan** – your concerns will be addressed in the second part of the further information response expected early August.

**Everyone else** - Can you please review the attached response and confirm whether or not the concerns you identified in your original assessments have been addressed by the applicant (I have attached the s92 request for ease of reference). If they have not been addressed can you please advise:

- Any areas of concern that have been addressed by the response
- Any areas of concern not appropriately addressed by the response
- what further information you require for remaining concerns to be 'closed out' and the format in which you would like this information to be provided

It would be appreciated if you could review the final response and provide any comments back to me within **5 working days (30 July 2019)**. Please let me know ASAP if you are not able to meet this timeframe.

Please give me a call if you have any questions.

**Shannon Watson** | Kaitohutohu / Resource Advisor, Environmental Regulation

**Subject:** Eastern Bays Shared Path project: Further Information Request (s92) and s95E RMA - WGN190301 & RM190124

Hi Shannon and Dan

I refer to your letter dated 29 May 2019 requesting further information under section 92(1) from both Greater Wellington Regional Council (GWRC) and Hutt City Council (HCC) and for an additional request for affected party approval under s95E from GWRC.

Please find the attached memorandum outlining our responses to the requested information under the headings that are set out in your letter. Where necessary we have added more detail under a series of annexures attached to the memorandum.

Please note that further investigations are currently being undertaken on shoreline foragers, penguins and seagrass. We are planning to get a response to you early in August.

I have also attached a written approval form from CentrePort as requested. HCC Parks will provide comments during the internal feedback process. We have yet to receive written approval from Mr and Mrs Thomas and will follow up with them again.

Ngā Mihi | Kind regards,

**Caroline van Halderen**
