Overview - Part 5: Tenderer's Capacity

This Part 5 Returnable seeks information about the Tenderer's Capacity (expressed as total Peak Vehicle Requirements (PVR) for tendered Bus Units).

GWRC will use this information to ensure Tenderers are not awarded more Contracts than they have the capacity to deliver in accordance with section 9.4.6 (Tenderer Capacity) of this RFT.

Note that a Tenderer's Capacity should not be less than the PVR of any individual Bus Unit or the combined PVR of each Bus Unit within a Bundle that the Tenderer has tendered for in any single Tender. For the purpose of Tender evaluation the PVR for each Bus Unit used to assess the Tenderer's Capacity is outlined below. Tenderers are required to base their figures on the below estimated revenue service PVR.
