

Proposed Plan Change 1 to the Natural Resources Plan for the Wellington Region – Further Submission Form (Form 6)

Further Submissions on a Publicly Notified Change to a Plan or Policy Statement under Clause 8 of the First Schedule to the Resource Management Act 1991. The closing date for Further Submissions is 5:00pm Friday 8 March 2024.

Who can make a Further Submission?

A Further Submission may be made by any person who:

- Represents a relevant aspect of the public interest; or
- Has an interest in the proposal that is greater than the interest of the general public. (an explanation for the reasoning behind why you qualify for either of these categories must also be provided); or
- The local authority itself.

More information on the [Natural Resources Plan, Plan Change 1](#) and on the [consultation and submission processes](#) please visit our website.

How to make a Further Submission:

1. You can use the [online submission portal](#); or
2. You can use the Further Submission Form(s) (Form 6).
 - [This Further Submission Form\(s\) \(Form 6\) – Microsoft Word version](#); or
 - [Further Submission Form\(s\) \(Form 6\) – Microsoft Excel version](#).

Please send the Further Submission Form in by one of the below methods:

- Email it to the regionalplan@gw.govt.nz.
- Post it to: [PO Box 11646, Manners St, Wellington 6142, ATT: Hearings Advisor](#).
- Drop it off at reception at one of our offices, marked ATT: Hearings Advisor.

Due to delays in postal services and the timeframe for making Further Submissions, we highly recommend that an electronic copy of your Further Submission is provided by the closing date.

Further Submission Form requirements:

- All sections of this form need to be completed for the Further Submission to be accepted.
- You must send a copy of your Further Submission to the original submitter.

Any person making a Further Submission must serve a copy of that submission on the original submitter no later than five working days after the submission has been provided to Greater Wellington. Each submitter has an address for service available on our [website](#). If you have made a Further Submission on several original submissions, then copies of your Further Submission will need to be served with each original submitter.

4. Further submission points						
*Submitter name	* Submission point number:	*Stance on the submission point:	*Decision sought:	Decision sought	Reasons:	
Forest & Bird	S261.051	Oppose	Disallow	Whole submission point	CentrePort supports the maintenance and improvement of coastal water quality to ensure the objectives set out in Table 8.1 are met but considers that the timeframe should be to 2040 rather than 2030 as suggested by Forest & Bird. This is to recognise the investment needed in some circumstances to ensure these parameters are maintained or improved.	
Forest & Bird	S261.052	Oppose	Disallow	Whole submission point	CentrePort does not support the inclusion of turbidity in the coastal water objectives. Objective WH.O3 indirectly supports ensuring turbidity is at acceptable levels by 2040 so that coastal areas support healthy functioning ecosystems.	
Forest & Bird	S261.071	Oppose	Disallow	Whole submission point	CentrePort does not support the inclusion of 'toxics' into this policy. Copper and zinc are recognised as two key contaminants associated with stormwater discharges and it is considered that the scope of this does not need to be amended to include other contaminants.	
Forest & Bird	S261.101	Oppose	Disallow	Whole submission point	CentrePort does not support reclassifying this as a discretionary activity rule and consider that restricted discretionary is an appropriate activity status.	
Forest & Bird	S261.102	Oppose	Disallow	Whole submission point	CentrePort does not support the inclusion of a new matter of discretion stating 'adverse effects on the environment'. CentrePort consider that the matters of discretion in Rule WH.R8 adequately address the adverse effects on the environment.	
Environmental Defence Society (EDS)	S222.024	Oppose	Disallow	Whole submission point	CentrePort supports the maintenance and improvement of coastal water quality to ensure the objectives set out in Table 8.1 are met. However, CentrePort consider that the timeframe should be to 2040 rather than 2030 as suggested by EDS. This is	

Environmental Defence Society (EDS)	S222.025	Oppose	Disallow	Whole submission point	to recognise the investment needed in some circumstances to ensure these parameters are maintained or improved. CentrePort does not support the inclusion of turbidity in the coastal water objectives. Objective WH.O3 indirectly supports ensuring turbidity is at acceptable levels by 2040 so that coastal areas support healthy functioning ecosystems.
Department of Conservation	S245.047	Oppose	Disallow	Whole submission point	This submission seeks that Rule WH.R8 is amended as appropriate to better give effect on NZCPS Policy 23(4) matters a) to d). CentrePort considers Rule WH.R8 has been drafted to give effect to these matters. As such, do not support the relief support in this submission point.
