**RE: Procurement Opportunity for Regional Trains and Feasibility Study for Auckland Region**

Thank you for your letter regarding the above. We note the significant progress you have made in progressing to Request for Proposals from a shortlist of bidders.

We would welcome the opportunity for a briefing on the technical specification and commercial terms of your procurement so that we can better understand potential opportunities and can also keep informed of current market conditions. One of our team will be in contact with Barry Fryer.

No decisions have been made regarding scope and timing for future rolling stock orders for Auckland and opportunities to secure economies of scale through joint procurement will be considered where feasible.

Kind regards

Richard Legat
