**To:** The Registrar  
Environment Court  
Wellington

- 1 Fire and Emergency New Zealand (*Fire and Emergency*) wishes to be a party to the appeal lodged by Rangitāne Tū Mai Rā Trust and Rangitāne o Wairarapa Incorporated Society (*the Appellants*) against parts of the decision made by Hearing Commissioners on behalf of the Greater Wellington Regional Council on the Proposed Natural Resources Plan (*the Plan*).
- 2 Fire and Emergency made a submission on the subject matter of the proceedings.
- 3 Fire and Emergency is not a trade competitor for the purposes of section 308C or 308CA of the Act.
- 4 Fire and Emergency is interested in all of the proceedings but in particular the Appellants' appeal points in relation to Policy P111 – Water takes at minimum flows and water levels.
- 5 Fire and Emergency opposes the relief sought by the Appellants to:
  - (a) Amend the policy and associated rules so that it does not provide for takes below water quantity limits established in the Plan.
  - (b) Amend the policy to not allow takes below minimum flows and/or establish a secondary minimum flow limit to provide for essential takes, including consequential changes to the rules.
- 6 Fire and Emergency opposes the relief sought by the Appellants on the basis that:
  - (a) The relief sought will not give effect to section 14(3)(e) of the Act which allows the take, use, damming or diverting of water where:

*"The water is required to be taken or used for [emergency or training purposes in accordance with section 48 of the Fire and Emergency New Zealand Act 2017]."*

- (b) The relief sought does not recognise that the take of water under section 14(3)(e) is not subject to limitations such as those applied to the take of water under section 14(3)(b) of the Act.
- (c) Policy P111 and the associated rules as set out in the decisions version of the plan constitute the most appropriate way to give effect to the Act, including (but not limited to) Part 2, section 14 and sections 63 - 70.
- (d) The relief sought will not give effect to the National Policy Statement for Fresh Water Management 2014. In particular it will not give effect to the requirement in Policy CA2(f)(v) that in the development of freshwater objectives regional councils must "at all relevant points in the process" consider, inter alia:
- "any implications for resource users, people and communities arising from the freshwater objectives and associated limits including implications for actions, investments, ongoing management changes and any social, cultural or economic implications."*
- (e) The relief sought will not give effect to the Greater Wellington Regional Policy Statement, including but not limited to:
- (i) Objective 12, which seeks that *"The quantity and quality of fresh water:*
- (a) *meet the range of uses and values for which water is required;*
- (b) *safeguard the life supporting capacity of water bodies; and*
- (c) *meet the reasonably foreseeable needs of future generations."*
- (f) Policy 17, which specifically recognises the requirement in section 14 of the Act to enable water to be taken for fire fighting purposes and requires regional plans to:

*"ensure the allocation and use of water from any river or ground water source provides sufficiently for the health needs of people, including:*

- (a) the taking of water by any statutory authority that has a duty for public water supply under any Act of Parliament;*
  - (b) the taking of water for reticulation into a public water supply network; and*
  - (c) the taking of water for community supplies."*
- (g) The relief sought will not give effect to the objectives of the plan, including inter alia:
- (i) Objective O2 which recognises *"the importance and contribution of air, land and water to the social, economic and cultural well-being of the community"* and the management and allocation of those resources where applicable; and
  - (ii) Objective O6 which looks to provide *"sufficient fresh water of a suitable quality for"* the health needs of people.
- (h) The relief sought will not allow Fire and Emergency to carry out their statutory operational requirements during an emergency situation.
- 7 Fire and Emergency agrees to participate in mediation or other alternative dispute resolution of the proceedings.

**DATED** this 9<sup>th</sup> day of October 2019
