

Good morning,

HortNZ would like to request an extension for the due date for hearing stream 2 evidence. We also have further submissions for the proposed Marlborough Environment Plan and evidence for Whangarei District Plan hearings due on the 23rd so it would be greatly appreciated if we could submit our evidence the following week.

Angela Halliday and Lynette Wharfe will be representing HortNZ at Hearing 2 and they will need one hour to present.

Kind regards,

Astra Foster | Natural Resources and Environment Coordinator | Horticulture New Zealand
