Horticulture NZ	S307/080	Amend	Delete Maps 26, 27 27a, 27b and 27c. Community drinking water supply protection areas and replace with community drinking water sources.	6	1
Regional Public Health	FS82/035	Oppose	Given the complexity of what impacts on groundwater sources, and the need for human activities to support health via economic wellbeing, we would welcome being part of any further discussions around the derivation of the community drinking water supply protection areas.	6	n/a
John Carred	S314/017	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.	6	0
Charlie Matthews	S320/023	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.	6	0
A T McKay	S298/017	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.	6	0

Federated Farmers of New Zealand	S352/289	Amend	See submission point S352/284	6	0
Federated Farmers of New Zealand	S352/284	Amend	That WRC undertake more detailed mapping and risk analysis alongside cost-benefit analysis of options for source/ treatment/zone controls, in consultation with Federated Farmers and territorial authorities, prior to the hearing to provide additional guidance to the hearing panel. That Schedule M be amended as follows, or to similar effect: Schedule M: Community Drinking Water Supply Abstraction Points Regionally important drinking water supplies: - community supplies as currently listed; and - identify priority supplies with substantive non-compliance with primary health determinands Locally important drinking water supplies: - list smaller rural supplies and - identify priority supplies where bacteriological standards are not met Groundwater drinking water quality - map domestic drinking water takes - identify priority areas with elevated groundwater nitrate relative to the standard	6	3
Carterton District Council	FS85/009	Neither support nor oppose	CDC wishes to participate in any further work, discussions or hearings relating to the mapping or provisions relating to its community drinking water supply areas.	6	n/a
Regional Public Health	FS82/034	Neither support nor	Regional Public health is neutral on submission point 352/284. Regional Public Health	6	n/a

		oppose	welcomes further discussion of the derivation of community drinking water supply protection areas and the practicalities of their use for implementing the NES for Sources of Human Drinking Water		
Fish and Game	FS89/017	Oppose	Fail to recognise integrated nature of groundwater and surface water.	6	n/a
