Form 33
Notice of person's wish to be party to proceedings
Section 274, Resource Management Act 1991

To:
The Registrar
Environment Court
Wellington

1. Winstone Aggregates, a Division of Fletcher Building Ltd (Winstones, formerly known as GBC Winstone) wishes to be a party to the proceedings set out in the table below.
2. Winstones is a company that has made a submission about the subject matter of the proceedings.
3. Winstones is not a trade competitor for the purposes of section 308C or 308CA of the Resource Management Act 1991.
4. The parts of the proceedings that Winstones wishes to become involved in are set out in the table below.
5. Whether Winstones supports, opposes or conditionally opposes the relief the appellant proposes is also set out in the table.
6. Winstones agrees to participate in mediation or other alternative dispute resolution of the proceedings relating to all the items in the table.

Environment Court Ref No	Name of Appellant	Part(s) of appeal of interest to Winstones	Support/Oppose relief + reasons
ENV-2019-WLG-000120	Hutt City Council	Item 6(a) relating to the recognition and inclusion of solid waste disposal as regionally significant infrastructure	Support, as sanitary landfills and large-scale cleanfills are essential components contributing to social, economic, environmental and cultural wellbeing of people and communities and should be recognised as beneficial uses in the plan.

Environment Court Ref No	Name of Appellant	Part(s) of appeal of interest to Winstones	Support/Oppose relief + reasons
ENV-2019-WLG-000110	Masterton District Council	Modifications sought to Policy 7, by including regionally significant infrastructure	Support, as the recognition sought is appropriate and recognises important elements of land and water use
ENV-2019-WLG-000116	Porirua City Council	Item 10 of the appeal point, relating to the definition of regionally significant infrastructure	The appeal point is supported in part and opposed in part. The addition of "municipal landfills", while recognising one type of managed landfill activity as regionally significant infrastructure, does not reflect the range of facilities of a similar nature which provide for essential deposition of a range of types of waste on a regional or sub-regional basis (including by operators or in circumstances which would not fit the concept of "municipal")

Dated: 25 November 2019

Pherne Tancock
